

## **Christmas 2020**

**Dear Friends and Family,**

2020 was... unique. Sarah (20) started a TikTok channel teaching llamas how to dance and has 3 million followers. Alex (14) built a miniature rocket and launched it from the backyard, which accidentally interrupted a weather satellite. We're now on NASA's watchlist.

John attempted to create a backyard ice rink but miscalculated and froze the entire driveway. The UPS driver is still mad. I spent the year testing homemade soap recipes that resulted in an explosion so large it made the local news.

Wishing you a socially distanced but equally absurd Christmas!

Soapy and sorry,  
**The Smith Family**
