

Christmas 2016

Dear Friends and Family,

We've officially outdone ourselves this year. Sarah (16) got her driver's license and immediately tried to drift in the family minivan. The minivan is fine; the mailbox is not. Alex (10) built a robot that plays the banjo and entered it in "America's Got Talent." The judges are still confused.

John attempted to host a barbecue for 200 people but accidentally used fireworks instead of charcoal. As for me, I entered a hot air balloon race but misjudged the landing and ended up in someone's wedding photos.

Wishing you a holiday as explosive as ours!

Airborne and slightly embarrassed,
The Smith Family
