

Christmas 2024

Dear Friends and Family,

Merry Christmas from the Smiths, where the impossible happens daily! Sarah (24) is now training penguins for a new Arctic Olympics and has been featured on three documentaries. Alex (18) built a fully functional time machine out of an old refrigerator. He's been grounded for altering history, though he swears it's why pizza exists.

John accidentally started a rivalry with the neighbor after their synchronized drone light show got out of control. Meanwhile, I've been touring the country with my new stand-up comedy act, *"Explosions and Alpacas."*

Wishing you a time-traveling, penguin-filled holiday season!

Timelessly yours,
The Smith Family
